

Styropek is a chemical company, where all collaborators are committed to the highest standards of safety, health, environmental protection and quality according to:

- The Values and Code of Conduct.
- The delivery of required quality by our clients in products, services and solutions.
- Achieving business excellence through:
  - Continuous improvement, risk analysis and environmental performance.

With the active participation and interaction of all parties in order to achieve:

- Preserved health and integrity of collaborators.
- Increased customer satisfaction.
- Promoting Sustainable Development.
- Compliance with national, international and voluntary government regulations.
- Promoting the ESG (Environmental, Social and Governance) model.
