

Safety, Health, Environmental Protection, Quality and Sustainability Policy

Styropek is a chemical company, where all collaborators are committed to the highest standards of safety, health, environmental protection, quality and sustainability according to:

- The Values and Code of Conduct.
- The required quality by our clients in products, services and solutions.
- Achieving business excellence through:
 - Continuous improvement.
 - Risk analysis.
 - Environmental protection.
 - The management of our operations and processes in a sustainable manner under the ESG (Environment, Social and Governance) criteria.

With the active participation and interaction of all interested parties in order to achieve:

- Preserved health and integrity of collaborators.
- Increased customer satisfaction.
- Promoting Sustainable Development.
- Compliance with national, international and voluntary government regulations.
- Standardize our ESG strategy, thus, contribute to sustainable development where we live and operate.

President,

Andreas Plettner
